**Le linee geometriche e pulite di Kube disegnano una famiglia di prodotti completa e versatile a partire dal grande lavabo a doppio catino di dimensioni 150x50 all'unità minima del lavabo 40x23 per ambienti di servizio, tre modelli di vasi a sospensione in due diverse misure, la vasca da bagno freestanding che riprende nel design e nei rapporti formali le sofisticate linee della collezione. Kube propone lavabi installabili a sospensione con il predisposto sistema di portasciugamano, pur mantenendo l'opzione di installazione che si preferisce: ad appoggio, incasso, o semi-incasso. Tra i lavabi si distinguono il 150 e il 120x50 per espressione di esperienza tecnica data l'eccezionale lunghezza, e diverse soluzioni con pratici piani laterali, simmetrici o asimmetrici.**

Kube's clean geometric lines characterize a complete, versatile line of products, starting from the large 150x50 twin washbasin down to the smallest 40x23 hand rinse basin suitable for service environments, three models of wall hung wcs in two different sizes, a freestanding bathtub whose design and formal relations reproduce the collection's sophisticated lines. Kube offers washbasins in a wall hung installation that includes a pre-designed towel rack system while still allowing customers to choose their preferred installation options: countertop, built-in or semi built-in. The 150 and 120x50 models stand out among the washbasins as an expression of our technical experience because of their exceptional length and different available options with practical lateral, symmetrical and asymmetrical surfaces.
